Yes only Leased purchases have untagged in the beginning of the beat. Premium leases don't have tags on the beat.

Can I change beats after purchase or get a refund if I don't like the beat?

There is a strict NO REFUNDS. All items marked for sale on this website and marketplaces we offer our products, are for digital download only. We do not deliver any physical goods to you for purchases. As a result, all sales on digital downloadable goods are final and we cannot offer a refund for something we cannot take back. In rare cases of duplicate purchases, or other rare circumstances, we will match what you paid with an item of equal or similar value. By making a purchase you have agreed to these terms and conditions. It is therefore also not possible to change beats afterwards if your license document has already been issued. All beats can be heard and downloaded as tagged versions before purchase. The beats are also audible in the store. You need to take care and make sure that you order the right beats!

Can I still use a leased bet even if it's sold exclusively?

YES! As long as you stay within the concerned license terms, you are allowed to use your license even if exclusive rights are no longer available and have been sold to the beat(s). Selling exclusive rights does not affect any previously sold licenses.

Can I resell the beats after purchasing a lease?

NO! You are NOT allowed to re-sell the beat(s) or transfer your license-rights to the beat(s) to a third person.

How do I give proper producer credit when releasing a song?

Proper credit is given as follows in written form: ‘Beat by Linndzproductions’; ‘Beat produced by Linndzproductions; ‘Beat by Linndzproductions.com’. Downloadable files need to include ‘(Beat by Linndzproductions)’ within the filename. All displayed and uploaded content needs to include written credit in either the title or description.
